Vega visited the area and a return visit  
1966 was added to complete a post-study  
tour of STA, 14 and 15. Despite the fact  
27 years earlier Esteban had been most struck  
by *Palaeocarpus* but now found *Cyperaceae*  
to dominate the culture on Cuba.

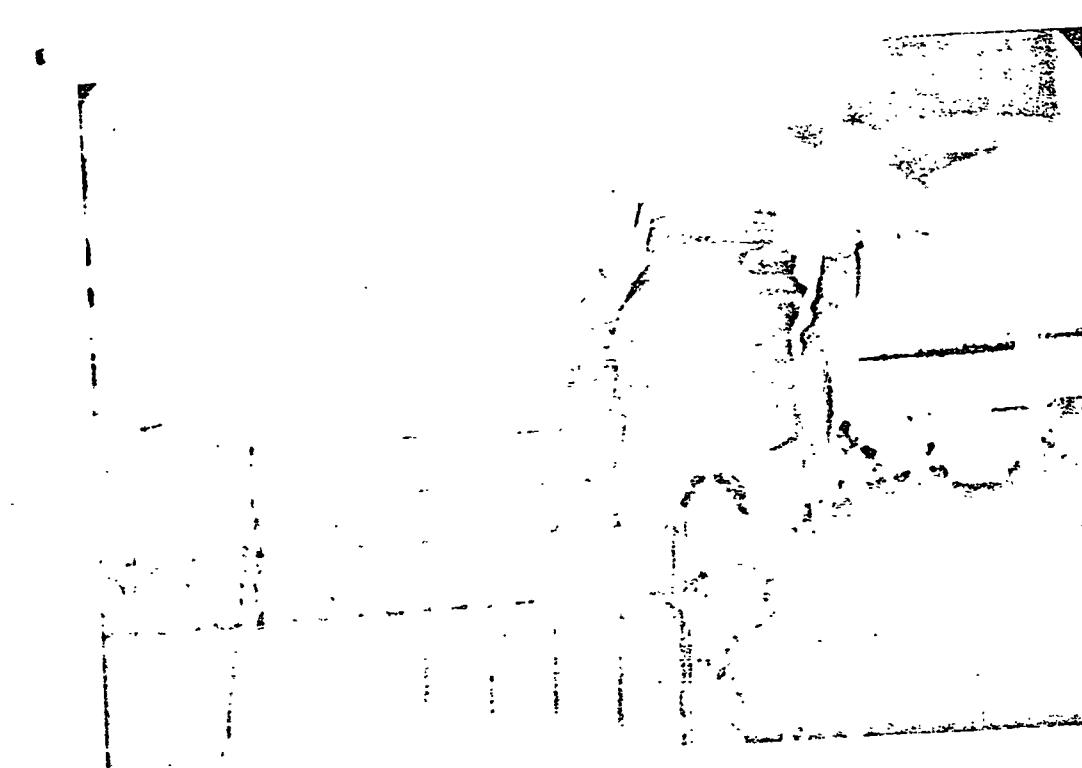

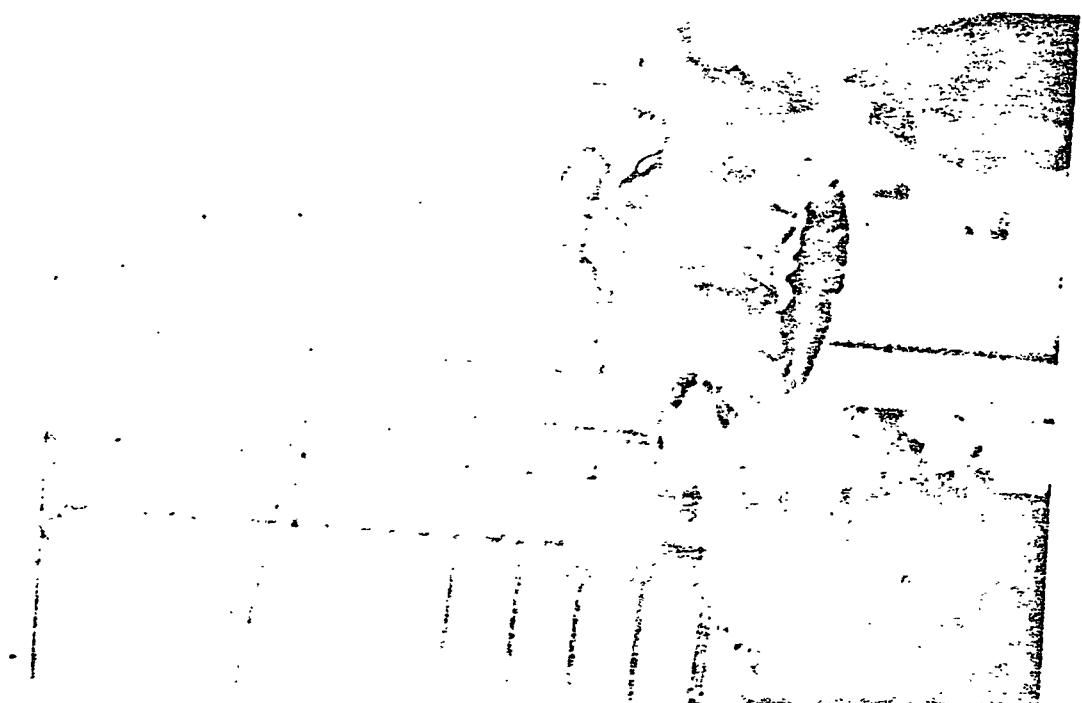

Vega visited Cuba 29 May - 16 June 1967

Embassy (which was informed by the 11<sup>th</sup> Oct).

(9) Though requested by Major Stationery, asked the Navy  
for a photo C40, but did not persist and secure  
a photo before the return.

(10) Major Stationery did not match the 1st man intercept  
with its earlier intercept (of 12<sup>th</sup> and 14<sup>th</sup> Sept) until  
after the 22<sup>nd</sup> Nov. count, when it did so with  
velocity.

(11) Major Stationery did not match its 1st coverage  
of the unidentified individual with its coverage  
of the same individual on 4 Oct in front of the  
Soviet Embassy, and as 15 Oct. in front of the Cuban  
Embassy until after 22 Nov.<sup>123</sup>

(12) Despite the clear differences in description Major Stationery  
put the 16th photos into the chain of evidence on  
22 Nov. 22nd hour. Ultimately the decision having  
been made by the <sup>123</sup> Ambassador and the Director  
Chief <sup>123</sup> being faced with a fait accompli.  
(There is no record)

(13) No photo coverage was obtained at any time of C40 in  
Mexico City. The intro. of the unidentified individual  
in good faith by COB - was misleading and  
compromised the operations in the long run,  
though every effort was made to satisfy the require-  
ments of the Commission and the security of the  
operations.

(14) Two members of Cuban Int. know t have dealt with C40:  
Silvia Amor and Comand. cigar. latter left - explained  
as 21 Nov. 1953. name.

3. The threat of the situation after the 22nd count was against  
the USSR USSR rather than the Cubans. Coverage very  
weak however, turned up at least one significant  
intercept:

(a) The Cuban Collection. Conversation - afternoon

4. Major concern after ~~was~~ <sup>is</sup> based, on technical coverage and  
size utilization of liaison. The two signif. challenges are:

(1) Were the Soviets & Cubans aware of the  
coverage visual & audio before 22<sup>nd</sup>?

(2) Did Soviets and/or Cubans have penetration in  
the ~~communism~~ <sup>communist</sup> which would have per-  
mitted them to blunt the threat of the

(2) Restrictions of the amount of detail  
given by Silvia Duron. (Can we take  
in day 1967) <sup>→</sup> Statements to confid. sources be  
trusted? If so, then is also reason  
to review the Cuban Comsos de los  
details -) Duron was not subjected  
to a thorough identity examination  
based on what we know or could  
surmise from its intercepts.

(3) Yagario, Raúl Villanueva case  
(in ~~Guantánamo~~ & ~~Yagomej~~). This  
appears to have been rebutted. 3

(8) Case of Elena Basu de Teg. In the successive reports of the Legal Officer, Paris. This case suggests the possibility that Cuban sources in Geneva were in a position to manipulate and circumscribe the Cuban Human and other rights affecting themselves, including the African matters: note the extraordinary point that two attacks have as common - the presence of a red headed negro. (According to Alvarez in the Cuban compound, according to Elena Basu, in attendance at Cuban Delegates party)

(9) Observations by Eliz. Collett to Stages (Betty Stages) after her (unintelligible) visit to the Cuban Delegates to the UN. (24 June 1963) US's relationship to FFLC activity is probably undeniably and unambiguously on its face unless it can be assumed that FFLC and Cuban Delegates were more aware of what he was doing than they have acknowledged.

(10) Case of Texas Contractor. to Mr. James Tappin becomes in May 1963 relation to his alleged contact with pro Castro Student groups at UN. This is an attempt to cover this segment from our comments.

Can it be deduced that if he had contact with either Soviets or Cubans or both, that went beyond the transit-via aspect one into that he was told to assassinate Pres. Kennedy? or anything of that kind? (Consider in this context his subsequent letters to USSR Amb. Washington after return from Mexico.). Conclusively it makes more sense to conclude that his relations were in an incipient, developmental stage, and that his effort to redefeat was bona fide. (Note the symbiotic identity between his missile attempt in Moscow in 1959 which tipped the balance in the favor of remaining in the USSR, and the assassination as his ultimate self-protecting (and self-determining) "declaration".)

N.B.: this allows for LBJ having said publicly that was self-compromising in his dealing with Soviets and Cubans, including threats against the lives of prominent anti-Soviets and anti-Cubans, etc., which he neither the Soviets nor Cuban can admit after the events of 22 Nov, they knew.

6. What is the probative value - without formal collateral relating to Algeria and Dallas event - of Corks' statements as reported by AP, on 2 Sept 1963 at Biaglio's laundry meetings? Note that AP's version is the only element of the AP statements. Without factual collateral its probative value is taken as a conditioning factor, which could have operated principally on a homicidal individual in this case. Therefore Corks' event was a significant, but limited weight for what is said's whether the value and degree of persuasiveness of platform against

7. There is every reason to be sanguine with the rest of them  
but the French, however, expect that it is not beneath the  
to shift blame on us for allegedly not revealing what the  
anti-warists who were doing, among other things. So far as  
I know the policy was to deal with the king in

with us in its plotting. But not recognising that the  
King is the commonwealth's headship a law is not un-  
likely against such a plan with a chance of its being  
carried to the certain, which were to be done. Thereon  
he condemns the plot of the anti-warists.

13. Report <sup>now</sup> has not considered Oswald's sequence of activity as an operational continuum in which Soviets and Cubans were involved in their secret services than they can afford to admit. The Commission's report should have left <sup>a wider</sup> opening on this aspect because:

- ① this was very reasonable argument and some facts to conclude assassination, assignment and handling of LHO ("Red Tiger") in the Sov. Union and his Cuban interest, included in a unresolved context (Belgian testimony) which went back to 1970s. And if this was any secret, Oswald's testimony in 1963 file is conclusive.
- ② The material furnished by the FBI and Cuban (via Soviets) file for short of anything that fact and reasonable inference suggested.

Note that in our TS to Rosalia 19 Dec 1954 "before developed by CIA on the subject of Lee Harvey Oswald in Mexico City, October 27 Oct 1963, page 4, sub 3, we stated:

"From all the evidence, we believe we deduce that Oswald visited the Cuban Consulate in Mexico City, on the afternoon of 27 Oct 1963 and again sometime in October 1963. This is the evidence that we initially based on the basis of the documents found in the Cuban Consulate at least once after his initial visit, and this later visit was on the afternoon of a day on which the Cuban Consul telephoned the Soviet Consulate about Oswald's visa problem. This may well have been 28 Oct., but we cannot be certain of this conclusion."

According to Ch. 23 April 1915, the canon was born in 1270 for some mechanical malfunctions. He stated he and Diaw worked personally on each a subsequent flight stage.
